Reference: Assisting Officer Report

I was just released sent damage was done to my car I was trust.  
continued to complain of pain in all areas of his body. Lewis continued to complain of injuries and requested we contact Dana, who he said was his girlfriend. Lewis wanted his family notified immediately so they could come and pick him up. Despite explaining to him several times that he was in custody and would be going to jail, he did not feel there was any reason why he was being arrested. Lewis complained of being thrown to the ground too hard and injuring his arm. The suspect complained of having bruises on his face, however he was never in a position to have a mirror or be able to see any bruising. He said there was gravel stuck in his face and lacerations. This was not true. The doctor examined his face, cheeks, and head very thoroughly and found only some minor abrasions with absolutely no debris in them. Through the x-rays it was decidedly determined Lewis had a small bone chip broken off of his right elbow. It did not require immediate surgery. The doctor attempted to splint Lewis' arm and he became very argumentative and yelled he was refusing all medical care. The doctor was able to get the splint put in place. Lewis called the doctor some names and at that time she said she was finished with his exam and he was free to go to jail.

I called her Noel her first name.  
Chief Tom Richardson and I escorted the suspect, Lewis E. Byrd, to Vernon County Deputy Mark Bellacero's squad car. Lewis was secured in the rear passenger side seat. At 1:00 PM, Deputy Bellacero transported Lewis back to the Vernon County Detention Center and I followed in my squad car.

At 1:06 AM, we arrived at the detention center. I assisted in escorting Lewis Byrd into jail where he was turned over to conectional staff. The Booking Forms were completed. Deputy Bellacero and I cleared from the jail.
